

ATOM™ LED LIGHT

A TETHER- FREE LIGHT SOLUTION

The lightweight and versatile **Atom™ Light** produces a bright white-light spotlight at 23,000 lux. Ideal for practitioners who want a tether-free working experience. This clip-on light solution provides a wireless-tangle free option with magnetic batteries that clip to the light base. The Atom Light package comes with three rechargeable batteries, a filter, a charger, a Philips screwdriver and convenient carrying case.

VERSATILE FOR MANY CONDITIONS

Recommended for physicians performing procedures for:

- Facial Plastics
- Oral and Maxillofacial
- General Dentistry
- Cosmetic Dentistry

MAGNETIC LOUPE ADAPTERS

Magnetic loupe adapters are available for face shields and other manufacturers of loupes, including most major brands.

TOUCH ACTIVATION CONTROL

The Atom Light batteries features capacitive touch technology that can be used with gowns or gloves. The touch activation powers the light and controls two levels of brightness intensity.
